- Adult dogs of medium, large and giant size at rest or with intense physical activity
- Senior dogs of medium, large and giant size
- Cats

ADDITIONAL INFO

- Suitable to assist brain development and sight, as well as keeping hair and skin in the best conditions.
- Yucca schidigera reduces foul-smelling stools, typical of small sized-dogs, living indoor.

UNICA NATURA - Unico Mini

size: XXS - XS - S
Salmon, Rice and Peas

UNICA NATURA

NATURAL SUPERPREMIUM FOR DOG

KEY FACTORS

ARCHIEVED BENEFITS

Salmon	Real ingredient with only 100% of dehydrated sea-caught salmon without any other lower-grade fish. It is an alternative meat that stands out for the very high digestibility - over 97% - and for the content of essential poly-unsaturated fatty acids (EPA + DHA).
Rice	It is the most digestible cereal that does not contain gluten. Therefore it is also suitable for intolerant pets.
Peas	Legumes particularly rich in noble and essential amino acids - especially lysine - to keep a perfect muscle tone. The fibres, especially present in the cuticle, regulate the glucose passage in the blood, preventing rapid glycemic peaks after meals.
Pumpkin seed	Important multi-vitamin complex particularly rich in B group vitamins and phytosterols. The seeds are stone-ground to keep their properties intact. It is a considerable source of tryptophan, which is an amino acid barely present in the meat. However, being the precursor of serotonin, renowned hormone having a calming effect, it is very important for the maintenance of psycho-physical well-being and the control of latent aggressiveness.
Rosemary	It develops a powerful natural antioxidant mixture, protecting food from lipid peroxidation, without the use of BHA / BHT and artificial preservatives. It is extremely rich in antioxidant substances such as carnosic acid and other bio-flavonoids, having anti-bacterial, anti-mutagenic and anti-inflammatory properties.
Berries	Source of anthocyanins having a high absorption capacity of oxygen free radicals. It has been proven that they reduce fatigue due to physical activity.
