

# Canvit BARF Kelp 180 g

Dried Kelp (*Ascophyllum nodosum*) in organic quality for a healthy mouth and healthy skin

Supplementary food for dogs.

Brown marine alga (*Ascophyllum nodosum*) is a natural source of important minerals, such as iodine, calcium, phosphorus, magnesium, and potassium, as well as iron, vitamins B and C, and essential amino acids.

Kelp has unique antioxidant properties and supports hair pigmentation. Suitable for dogs feeding by BARF. In dogs suspected of having thyroid disease, consult your veterinarian.
